

Angle 1 — Lead Form: Maternity/Education Gap

Form Type Recommendation: Facebook Instant Form (Leads Objective)

- Use "Higher Intent" form type (adds a review step before submit — improves quality)
- NOT "More Volume" type (too many low-quality leads)

Form Name: Baby Starter Pack — 2026 SG Parents

Form Structure

Intro Card (shown before questions)

Headline: Your Free Singapore Baby Starter Pack is Ready

Description: "Includes: hospital checklist, delivery cost guide, first-month cheat sheet, AND a new 18-year cost timeline so you know what's coming from nappy to university. Download in 10 seconds — completely free."

Image: Same image as the ad creative (consistent experience)

Questions

Auto-fill Fields (Facebook pre-fills these from profile)

1. **Full Name** (*required*)
2. **Phone Number** (*required — WhatsApp number*)
3. **Email Address** (*optional — include if you want email nurture*)

Custom Questions

Question 1:

When is your baby due (or how old is your baby)?

Answer options:

- Currently pregnant (due 2026)
- Baby is 0–6 months old
- Baby is 6–12 months old
- Baby is 1–2 years old
- Planning to have a baby

Qualification note: All answers qualify for the lead magnet. This question is for segmentation — target follow-up messaging based on timing urgency.

Question 2:

Are you thinking about starting a savings or investment plan for your child?

Answer options:

- Yes, I've been meaning to start
- I have something in place but want to review
- Not yet — still figuring things out
- Just downloading the guide for now

Qualification note: "Yes, I've been meaning to start" and "Have something but want to review" = higher priority for meeting. Still send guide to all.

Question 3:

What's your rough monthly household income?

Answer options:

- Below S\$5,000
- S\$5,000–S\$8,000
- S\$8,000–S\$15,000
- Above S\$15,000
- Prefer not to say

Qualification note: S\$8,000+ = flag for meeting outreach. S\$5,000–8,000 = still valuable, frame meeting around CPF and lower-cost planning options. Below \$5,000 = send to nurture sequence only.

Question 4:

How much are you comfortable setting aside monthly for your child's future?

Answer options:

- Not sure yet
- S\$100–S\$300/month
- S\$300–S\$800/month
- S\$800–S\$1,500/month
- S\$1,500+/month

Qualification note: S\$300+/month = eligible for meeting invitation. S\$800+/month = priority outreach.

Thank You Screen

Headline: Your Baby Starter Pack is Ready!

Description: "Click the button below to download. I'll also reach out on WhatsApp within a few hours with your personalised 18-year cost projection — completely free, no strings attached."

Qualification Decision Tree

```
Lead comes in
|
|— Income S$8k+ AND savings S$300+/month?
|   → PRIORITY: WhatsApp within 5 min
|   Offer: "18-year personalised projection call (15 min)"
|
|— Income S$5–8k AND savings S$300+/month?
|   → STANDARD: WhatsApp within 2 hours
|   Offer: "Quick chat to see if I can help"
|
|— Income below S$5k OR "just downloading"?
|   → NURTURE: Add to email sequence
|   No direct meeting push
|
|— "Prefer not to say" on income?
|   → Treat as STANDARD until WhatsApp conversation clarifies
```

Lead Routing by Baby Stage

Baby Stage	Follow-up Tone	Meeting Frame
Currently pregnant	"Before baby arrives" urgency	"Let's set a plan before the chaos starts"
0–6 months	"You've just started the clock"	"Best time to start is NOW — here's why"
6–12 months	"8 months in — have you started the fund?"	Gap awareness, mild urgency
1–2 years	"You're 2 years into the 18-year window"	Compound interest story
Planning	Nurture first, offer planning session when "confirmed pregnant"	

Technical Setup Notes

- Connect lead form to a CRM (e.g., HubSpot Free, Zoho CRM Free) via Zapier
- Zapier trigger: New lead → Send WhatsApp notification to your phone → Auto-send PDF via email (if collecting email)
- Tag leads by income and savings tier for prioritised follow-up
- Response time target: Under 5 minutes for Priority leads, under 2 hours for Standard
