Custom Questions

Question 1:

How old are you currently?

Answer options:

- 50–52
- 53–55
- 56–58
- 59–61
- Other (I'm asking for a family member)

Qualification note: 53–58 = highest urgency (turning 55 soon or just turned 55). 50–52 = still valuable, longer planning window. "For family member" = treat as 50–52 equivalence, confirm on WhatsApp.

Question 2:

Do you know approximately how much you have in your CPF accounts combined?

Answer options:

- Below S\$100,000
- S\$100,000–S\$200,000
- S\$200,000–S\$400,000
- S\$400,000–S\$600,000
- Above S\$600,000
- Not sure / haven't checked recently

Qualification note: S\$200k+ = strong candidate for meeting. S\$400k+ = priority outreach. Below \$100k = still send report, but meeting pitch focuses on what can still be done. "Not sure" = treat as mid-range until clarified.

Question 3:

What is your main concern about CPF and retirement right now?

Answer options:

- Understanding what the 2025 changes mean for me
- Whether my CPF LIFE will be enough to live on
- What I can do to increase my CPF payouts before I retire
- When and how much I can withdraw
- I'm not sure — just want to understand better

Qualification note: "Whether CPF LIFE will be enough" and "increase payouts" = meeting-ready signals. All answers receive the report. Tailor WhatsApp follow-up based on their concern.

Question 4:

Do you have significant savings or investments OUTSIDE of CPF?

Answer options:

- Yes — S\$100,000 or more
- Yes — between S\$50,000–S\$100,000
- Some, but mainly relying on CPF
- No / not much outside CPF

Qualification note: S\$100k+ outside CPF = strong ticket size signal. "Mainly relying on CPF" = urgent gap — frame meeting as critical planning session. "No / not much" = nurture track, offer low-cost planning options.
